

DENSO™ PERFORATING TOOL

A new, lightweight porcupine style perforating tool for use with Denso™ Clear Outerwrap.

The roller consists of 20 individual spindles with sharp pins evenly spaced out, which rotate when rolled against the surface of Denso Clear Outerwrap, allowing large areas to be punctured quickly and uniformly.

FEATURES

- Professional quality, 16.5cm tall with an all metal body.
- Sharp, thin rotating points made from quality brass with a chrome plated finish.
- Wheels turn very easily to perforate Denso Clear Outerwrap quickly.

COMPOSITION

20 individual spindles to quickly release excess resin, moisture and CO₂.
